## FluidPRO®

# FluidPRO® PSX-3 for Power Steering Fluid Exchange Servicing

FluidPRO equipment from MAHLE Service Solutions offers a range of choices in fluid exchange equipment. The FluidPRO® PSX-3 is engineered for easy service hook-up and simple operation; just flip a switch and begin extracting or adding fluid. The added feature of the dual pump results in fast service times of 5-15 minutes, while the compact design takes up less floor space. The FluidPRO series goes beyond standards; for our customers, quality means failure-free assembly, satisfied end customers, and no product recalls — thus a strong brand. MAHLE Service Solutions is an industry leader when it comes to technical and training support. Whether our customers want on-site technical assistance in making their business more efficient or just have a question regarding our products, we're here for them!

Features of the PSX-3:

- Multiple power steering fluid capability for increased compatibility
- Automatic operation for improved technician efficiency
- Dual-process hoses provides visual insight to new versus used fluid
- Dual diaphragm-type pumps for speedy service times of 5-15 minutes
- Equipped with 1 GAL new and 1 GAL used fluid tanks for complete servicing
- Available with a compact cart designed to occupy less floor space
- Also available with ATX+Boost mount for providing automatic transmission fluid and power steering fluid exchange services at the same time
