OzonePRO

Fully-automatic electronic device for sanitation.

OzonePRO – always ready for use.

The system is made up of a high-capacity (5,000 mg/h) portable **Ozone Generator**, integrated with the MAHLE exclusive **Multifunction Sensor**, at the core of the system, which analyzes, calculates, and guides all of the sanitizing operations.

Every environment has different requirements of how long and with how much ozone it should be handled, depending on the specific **volume of air, temperature and humidity, interiors' composition, and level of cleaning**. Time should only be considered once the proper saturation level has been reached in the environment.

This task is handled by the special Multifunction Sensor, which in fact controls every step of the sanitizing process based on the evolution of the vehicle's environmental and internal parameters.

Control over the sanitizing procedure ensured by OzonePRO prevents all those circumstances that may jeopardize the final result: excessive ozone persistence, failure to reach proper saturation, or inadequate saturation times.

The design and engineering ensures sanitation is obtained thanks to the extensive expertise of MAHLE, a global leader in the manufacture of automotive filtration systems.

Smart operability guaranteed by MAHLE.

Adding OzonePRO as part of your work routine is super simple.

Extremely portable, it can be used inside the vehicle cabin, thanks to the specific 12V cigarette lighter socket. Just place the unit inside the area to be sanitized, connect the power supply, press Start and the device will do the rest, and informing you when the process is complete and the area sanitized.

Just like all the other devices from MAHLE Aftermarket, **OzonePRO has its own App**, allowing you to manage the device and monitor its processes remotely: 03-Easy.

At the end of the process, the **Sanitation Report** can be sent or printed, and given to your customer, thus adding value to the excellent service you are providing.

Product	Part number
OzonePRO Generator w/AC Power Supply Combo	490 80003 00
OzonePRO Generator 12VDC	490 80001 00
AC to DC Power Supply 220V/120V	490 80002 00
