

ShopPRO® Multi-use lift table

Versatile lift table for demanding applications

Engineered for professionals who demand reliability and strength, the ShopPRO® multi-use lift table is a powerhouse solution for lifting, positioning, and servicing heavy components. With a robust 2,200 lb (1,000 kg) capacity and a smooth air-over-hydraulic system, this lift table is ideal for handling engines, EV batteries, subframes, and fuel tanks—making it a versatile asset in both traditional and electric vehicle service environments.

The lift table features a spacious tabletop and a stable footprint, offering ample room and support for large components. Whether you're removing a combustion engine or servicing an EV battery pack, the adjustable lift range ensures compatibility with a wide variety of service tasks. Integrated ratchet straps and a flow control valve provide secure lifting and controlled lowering, enhancing safety during operation.

Four heavy-duty caster wheels with swivel and wheel locks allow for smooth maneuvering and precise placement in tight shop spaces. The folding handle makes transport and storage

effortless, while the integrated fixture rack keeps tools and accessories organized and within reach. Adjustable fixtures make the table adaptable to multiple platforms and service needs.

Whether you're working in a high-volume repair shop or a specialized EV service bay, this ShopPRO® lift table delivers the strength, precision, and flexibility required for today's complex automotive systems. MAHLE Lifecycle & Mobility Service Solutions provides a purpose-built solution that supports safe, efficient handling of engines, batteries, subframes, and more—making it an essential tool for technicians working across both traditional and electric platforms.

MAHLE

MLT-2200 Features

- Handles heavy engines, EV batteries, and industrial components with ease
- Lift range supports a wide variety of service applications and vehicle platforms
- Provides smooth, consistent lifting performance for precision work
- Spacious surface accommodates large components and fixtures
- Ensures stability and secure lifting during operation
- Adds flexibility for different component sizes and service tasks
- Caster wheels enables easy mobility and secure positioning in the shop
- Folding handle simplifies transport and saves space when stored
- Integrated fixture rack keeps tools and accessories organized and within reach
- Flow control valve & ratchet straps enhance safety and security

Specification	MLT-2200
Part number	485 80188 00
Lifting Capacity	2,200 lbs (1,000 kg)
Table top dimensions	59 x 31 in (73.6 x 78.7 cm)
Base footprint	65 x 34 in (165.1 x 86.3 cm)
Lift Range (excluding fixture height)	20 to 68 in (50.8 x 96.5 cm)
Fixture Height Adjustment	+7 to 11.5 in (17.7 to 29.2 cm)
Lift Mechanism	Air-over-hydraulic system
Caster diameter	6 in (15.2 cm)
Weight	715 lb (324.3 kg)

Adapters / accessories

Part number	Description
485 80194 00	Lift table extension
485 80191 00	Lift table strut support
485 80192 00	Lift table fixture set (included with table)
485 80193 00	Lift table transmission adapter head
